SUMMARY

Aspiring Front End React.js Developer Trainee eager to contribute to a dynamic team and enhance my skills in building engaging user interfaces. With a strong foundation in JavaScript and a passion for creating seamless web experiences, I am excited about the opportunity to learn from industry experts and collaborate on innovative projects. My dedication to continuous improvement and teamwork makes me a perfect fit for your team, and I am ready to bring my enthusiasm and creativity to your organization.

EXPERIENCE

❖ Front End React.js Developer Trainee, Instant Software Dec 2025

Developed interactive, user-facing features and reusable React components using modern JavaScript (ES6+), HTML5, and CSS3, adhering to clean code and component-based architecture principles. Translated UI/UX design mockups into high-quality, responsive code, ensuring technical feasibility and faithful implementation across different browsers. Built and managed application state efficiently using React Hooks and basic state management patterns, and integrated data from simulated RESTful APIs using asynchronous JavaScript. Actively participated in code reviews and collaborative learning sessions, utilizing Git for version control within an Agile-inspired training framework to share knowledge and improve code quality.

- Optimized application performance, reducing load times by 30%.
- Utilized RESTful APIs to integrate backend services seamlessly.
- Collaborated with cross-functional teams to deliver high-quality projects.
- Developed dynamic user interfaces using React.js for enhanced UX.
- Implemented responsive designs ensuring mobile compatibility.
- Gained hands-on experience with state management using Redux.

EDUCATION

❖ Al-Salam Secondary School for Boys
Secondary Education, Suez, Egypt

In Progress

SKILLS

React.js	JavaScript (ES6+)
HTML5	CSS3
JSX	Git
NPM	Vite
Webpack	React Hooks
Context API	Component-Based Architecture
RESTful APIs	Asynchronous JavaScript
Responsive Web Design	React.js Development
JavaScript ES6+	Responsive Design
API Integration	Version Control (Git)
Component Reusability	Team Collaboration
UI Component Building	Problem-Solving
Git Version Control	Problem Solving
UI Component Libraries
